Aviva Life and Annuity applications now available in all states

The merger of Aviva Life and Annuity Company and American Investors Life last fall required a transition period to accommodate the name change. In all but the states of Florida, Georgia, Minnesota, Mississippi, New Jersey and Texas, our annuity applications still bore the name American Investors Life during this transition.

We have recently completed this transition period and will therefore be discontinuing the use of American Investors Life applications. Beginning June 1, producers in all states will be able to use Aviva Life and Annuity Company applications. All policies issued after that date will be issued as Aviva Life and Annuity Company.

Aviva applications are available on Aviva Live and through your Marketing Organization. We will accept American Investors Life applications through June 30, 2010. American Investors applications submitted after June 30, 2010 will need to be re-submitted on the appropriate Aviva Life and Annuity Company application.

If you have any questions, please contact your Marketing Organization.
